- Cardiology Research Day

## HAIL TO THE CHIEF

We'd like to welcome Dr. Ian Hackett as the new Chief Fellow for the 2020 – 2021 fellowship class! Ian has hit the ground running and will do an outstanding job. Big thanks to Abdul Dia for his incredible work as Chief Fellow for the past year!!

## Welcome Our New Fellows

As a new year begins, we are excited to welcome six new Cardiovascular Disease fellows and seven new fellows in our subspecialty programs for the 2020-2021 year. We are also delighted to have old friends in new roles in Cardiac Imaging and Interventional Cardiology.

Our incoming class is an accomplished group and we are confident they will all be great additions to our Section. To get to know each of our new fellows, please see their photos and read their bios on subsequent pages. Here's to a great year!

---

## A Year for the Books: 2019-2020 Fellowship Year

We have just completed a remarkable 2019-20 fellowship year. COVID-19 couldn't stop us! Our fellows made us proud with many accomplishments, honors, and more. They dedicated countless hours to our Section, providing incredible patient care, all while developing as leaders, teachers and scientists. On behalf of all Cardiology faculty and staff, we thank you all for your hard work and offer big congratulations to our six graduates.

In dealing with  
the COVID-19  
Pandemic,  
Our fellows  
showed what  
incredibly  
dedicated  
professionals  
they are

\*Due to COVID 19 we were unable to take our annual Section photo.

## The New Faces of Cardiology Fellowship

### Anthony Kanelidis

I grew up in Miami, FL and went to college at the University of Miami - Go Canes! I then attended medical school at the University of Miami Miller School of Medicine where I began dating my wife Jess. We were thrilled to couples match for residency in her hometown of Chicago where I am proud to say I have survived all three winters. I had an incredible experience during my Internal Medicine residency at the University of Chicago and could not be happier to continue my fellowship training here and join the Cardiology family. I love the outdoors and enjoy being active, playing sports like water polo and basketball, or going out on the lake to wakeboard or waterski.

### Steven Mazzone

I was born and raised in the northern suburbs of Chicago and have lived in the city for the greater part of the last decade. After a brief stint up north attending the University of Wisconsin-Madison (Go Badgers), I returned to pursue a medical degree at Rush Medical College. I was fortunate to match at the University of Chicago for IM residency and am thrilled to be staying to complete my Cardiology Fellowship. A true Chicagoan at heart, I love watching the Bears, Blackhawks and Cubs, playing 16-inch softball and exploring the food scene with my wife. When I'm not at the hospital, I'm spending time with my family, traveling or on a golf course. I am looking forward to working with all of you!

### Patrick Miller

I was born and raised in Kansas City (the Kansas side), where my family lives today. I attended college at Miami University (Ohio) where I majored in chemistry. My love for Chicago first began after spending a year here after college working in healthcare consulting. After that year, I returned to my hometown where I attended the University of Kansas School of Medicine. Interested in exploring more of the country, I went east and completed my residency at Georgetown University in Washington, D.C. I've always had a desire to return to Chicago and could not be more excited to do so while training at UCMC. Outside of work I enjoy spending time outdoors, trying new restaurants, and exploring the city. On Sundays you can find me watching my beloved Kansas City Chiefs defend their Super Bowl title. I look forward to getting to know all of you and cannot wait to get started!

### Nicole Prabhu

I am originally from Edmond, Oklahoma, a suburb outside of Oklahoma City. I traveled to Atlanta for college, where I studied Economics at Emory. I then came back home where I earned my medical degree from the University of Oklahoma. I have been fortunate to spend the last 4 years in Chicago at Rush where I completed my residency and a chief year. In my spare time, I enjoy baking, yoga, and reading. I have also loved exploring all the unique Chicago neighborhoods, the amazing food scene and the outdoors festivals that Chicago offers. I am so happy to be staying in Chicago, and excited to start my training at University of Chicago and meet all of you!

### Ryan Sanderson

I was born in New York and grew up Long Island, but my family is now split between NY and Columbus, Ohio. I went to undergrad at the University of Michigan, where I studied Political Science and Anthropology. I decided to pursue medicine shortly after graduating college, and so I went back to New York to complete a premed post bacc program at Columbia. I've been in the Midwest ever since - first at Ohio State for med school, then back to the University of Michigan for residency (where my true allegiances lie). I spend most my free time playing golf, working on projects around the house, and finding ways to get outside with my spirited chocolate lab, Murphy. I'm so thrilled to be starting Cardiology at UofC and can't wait to get to know everyone.

### Jeremy Treger

I was born and raised in Medford, OR where my parents still live. Despite my love of snow and skiing, I headed to southern California for undergrad at Pomona College, where I majored in Chemistry. Afterward, I realized that I missed having four seasons and so was fortunate enough to come to U of C for medical school where I met my wife Melissa. During this time, I also completed a PhD in ion channel biophysics. I enjoyed U of C so much that I decided to stay here to pursue the physician scientist training path to combine my loves for medicine and research, and I'm very excited to be joining the cardiology department for fellowship. Outside of work I enjoy cooking new recipes, running along the lakefront, high-power rocketry, and trying to keep up with my daughter Amina.

## The Advanced Fellows of 2019-2020

### **Ryan Burris - Electrophysiology**

I was born and raised in California; I grew up in Orange County and then studied Biochemistry and Cell Biology at UC San Diego for both my undergraduate and graduate degrees. I hopped counties to go back home and went to UC Irvine for medical school, staying on for my Internal Medicine residency and Cardiology fellowship. My curiosity for understanding mechanisms and fundamental scientific principles has driven my studies and I couldn't be happier to further dive into the field of Electrophysiology at the University of Chicago. Outside of work, I enjoy spending time with my nephews and niece, surfing the different beaches near home, and learning bits and pieces about botany and art.

### **Aalap Narichania – Electrophysiology**

I was born and brought up in a suburb of Cleveland, OH. I attended Stanford University where I majored in European History. Along the way I decided to enter medicine and moved to Columbus, OH to attend OSU. I headed back out west to Mayo Clinic AZ for internal medicine residency and completed a chief year. In Arizona, I met my wonderful wife, Paula. We then moved to Wisconsin for cardiology fellowship at UW-Madison. There, I was afflicted with the EP bug. In Madison, we had our son, Ishaan, who revels in mischief. In my free time, I enjoy reading and spending time with my family, outdoors whenever possible. I wouldn't say that I enjoy working out but Paula says that I should. I am thrilled to now be at the University of Chicago for EP fellowship.

### **Nazia Alvi – Cardiac Imaging**

I was born and raised in Karachi, Pakistan and moved to the west suburbs of Chicago with my parents and sister when I was a teenager. We enjoyed trips to the city to Navy Pier, Devon Street and Museums. I attended college at University of Illinois in Urbana-Champaign and went to medical school at Midwestern University - Chicago College of Osteopathic Medicine in Downers Grove. During medical school, I lived in the South Loop and enjoyed exploring Chicago! I ventured about an hour south of Chicago to Riverside Medical Center in Kankakee, for my residency and cardiology fellowship. I have enjoyed being close to the windy city, spending time with friends and family, trying out different restaurants and attending improv and musical shows. In my downtime, I enjoy binge watching TV, cooking, drawing and creating art. I am thrilled to continue my cardiology future with a focus on imaging. I am extremely excited and honored to join the University of Chicago family as an Advanced Imaging Fellow this year! I look forward to working with you!

### Ryan Burkhart - Intervention

I was raised in the small town of Woodsfield, Ohio. Attended Muskingum College as an undergraduate where I was a Neuroscience major. I also played college baseball there. After undergrad, I joined the Army and attended Ohio University College of Osteopathic Medicine for Medical School. I did my Residency and a Chief Resident year at William Beaumont Army Medical Center in El Paso, and Cardiology Fellowship at Brooke Army Medical Center in San Antonio. In my free time I enjoy spending time with my family, being outdoors, and playing ball (any kind). I'm very much looking forward to joining the University of Chicago Cardiology Team.

### Indra Bole – Heart Failure

I was born and raised in beautiful Maryland and stayed local for college at the University of Maryland, where I studied biology and philosophy. I got my first taste of the Midwest during medical school at Rosalind Franklin University. From there I ventured south to Saint Louis for my internal medicine residency at the Washington University in St. Louis. I stayed on to work a year as a medicine hospitalist before moving back east for general cardiology training at Georgetown University / MedStar Washington Hospital Center. I couldn't stay away from Chicago for long though and am excited to join U of C for my Advanced Heart Failure Fellowship. When not working, I love spending time with my wife Sushma, traveling, cooking, and watching almost any sporting event.

### Haider Nazeer – Heart Failure

I was born in Karachi, Pakistan. At the age of 2, I packed up my limited belongings and moved to Houston Texas. Shortly after my father matched into residency in Albany NY and I spent the majority of my life in gorgeous upstate NY. I attended Rensselaer Polytechnic Institute in Troy NY for undergrad. For medical school I stayed in state at Upstate Medical College in Syracuse, New York. I matched into internal medicine at Northwell Health in Long Island, and then was fortunate enough to match cardiology in my hometown of Albany at Albany Medical center. I'm excited to leave my home state of New York for the first time as an adult and thrilled to join the UChicago family and explore the Windy City. In my spare time I enjoy hiking, cooking, live concerts, Netflix deep dives, terrible reality tv and watching the NBA.

---

### Vishnu Priya Pulipati – Preventive

I was born and raised in India. My loving family encouraged me to follow my passion for medicine and I attended Jawaharlal Nehru Medical College. My first international academic opportunity to attend clerkships at Harvard Medical School gave me the chance to meet brilliant physicians from different interests which inspired my journey for further education in the USA. I attended IM Residency at the University of Connecticut, met my husband in the interim (coincidentally a Cardiologist), and moved to Chicago for my Endocrinology fellowship at Rush University Medical Center. I chose to extend my educational aspiration to Preventive Cardiology due to the fascinating cardiometabolic pathophysiology, the emphasis on preserving the quality of life, and the opportunity to extend this learning to patient families by cascade screening where early intervention can make big impacts in health care. Outside of work, I paint, perform yoga, and enjoy traveling

---

### Let's Get Personal!!

#### Engaged!

- Elisha Wali and Nimit Desai were engaged on June 26<sup>th</sup>, 2020!!
- Nikhil Singh and Natalie Hartman were engaged in February 2019!!

#### Expecting!

- Mariam and Abdul Dia will welcome their first baby in November.
- Elisa and Rajeev Anchan will welcome their first baby in October.

#### Fellowship Class of 2048

- Mary Ellen and Michael Henry welcomed Leo into the world. Leo was born on 6/16/2020.

## Congratulations to the 2020 Graduates!

**DID YOU KNOW?**

*The Section of Cardiology was founded in 1950 at the University of Chicago.*

Dr. Rajeev Anchan will be an Advanced Fellow in Interventional Cardiology at the University of Chicago.

Dr. Emeka Anyanwu will be an Assistant Professor of Medicine/Cardiology, focused on imaging and informatics at the University of Pennsylvania.

Dr. Dong Bo Yu will be a Non-Invasive Cardiologist at ThedaCare Regional Medical center, in Wisconsin.

Dr. Ilya Karagodin will be an Advanced Fellow in Imaging Cardiology at the University of Chicago.

Dr. Isla McClelland will be a Fellow in Adult Congenital Heart Disease at Ohio State University.

Dr. Andrew Oehler will be a Preventative Cardiologist at the Allegheny Health Network, in Pittsburgh, Pennsylvania

## Congratulations to our Graduating Advanced Fellows too!

**Advanced Heart Failure and Transplant Cardiology**

- Heddy Luise Holzhauser will be joining the Heart Failure team as Assistant Professor of Medicine/Cardiology at University of Pennsylvania.

**Clinical Cardiac Electrophysiology**

- Arun Kannan will be an Assistant Professor at the University of Houston.
- Zenith Jameria will be an Electrophysiologist at the Union Hospital in Terre Haute Indiana.

**Interventional Cardiology**

- Paul Larsen will be a Cardiologist at Metro Heart Group in St. Louis.
- Joseph Venturini will be a Cardiologist at Advocate Medical Group at Edward Hospital.

**Rory Childers, M.D.**  
1931 -2014

Dr. Childers came to the University of Chicago in 1963 as a Cardiology fellow and remained here for 50 years. He became a renowned authority on the movement of electrical impulses within the beating heart and the use and interpretation of electrocardiograms. He lectured widely and received many honors. He was awarded the teaching award by the fellows so many times that the award was named after him.

Each year the fellows have the difficult task of choosing a faculty member to give the prestigious Rory Childers Teaching Award. It goes to a faculty member who the graduating class feels has inspired them and provided an outstanding mentorship and teaching.

**2019-2020**

## **Rory R. Childers Cardiology Teaching Award**

This year, The *Rory R. Childers Cardiology Teaching Award* was presented to  
**Dr. Amit Patel**

**Congratulations,  
Dr. Patel!**

## Morton Arnsdorf Cardiovascular Research Day

The symposium highlights the research within the Sections of Cardiology, Cardiothoracic Surgery, Vascular Surgery, Cardiac Anesthesiology and Interventional Radiology. This day is named in honor of our esteemed friend, mentor and colleague who we continue to miss greatly.

Unfortunately, 2020 Arnsdorf Research Day was a COVID-19 casualty, but it will come back even stronger in 2021!

## Despite COVID-19, Our fellows have had a very impressive academic production this year.....
